

## **PHONECEMETERY.COM APP PRIVACY**

### **PRIVATE USER**

Phonecemetery.com was born for the moral need to remember your deceased loved ones digitally, at any time of day or night, from wherever you are and in any weather condition. of the day or night, from wherever you are and in any weather condition, in a shareable way, finally

you can know in real time who is remembering your loved one.

Phonecemetery.com is a real but digital cemetery, where you are the one to insert the locus/grave of your loved one, data, photos, and for this reason you are the one who decided that everything becomes public, the same thing you did in setting up the tomb in the royal cemetery.

After downloading Phonecemetery.com, and entering your loved one, everyone can search for him and add him as a favorite.

Flowers, messages, photos, videos and candles can be sent to the deceased, and these actions can be seen by everyone who has the same deceased in the cemetery.

those who have the same deceased in the home (inserted or added to the favorites), and they receive information to the email

inserted in the account profile, so the responsibility of each action is individual, only of those who perform it,

Phonecemetery.com has only a technical informative function.

As you entered your loved one, you can modify the information and delete it permanently. All the above actions

are free for users, except for items in the shop that have a duration time and a cost, the latter visible to all so not protected by privacy.

### **USER INSTITUTION - MUNICIPALITY - NON-PROFIT ASSOCIATION - FUNERAL COMPANY**

For these types of users apply the same rules on privacy and methods of use of private users, but for the inclusion of the deceased with the same image of the tomb, and data existing at the actual cemetery, as well as location map, must receive the consent of family members, to make it all public and online, Phonecemetery.com will never have any responsibility in this regard.

### **NOTIFICATIONS**
